COMMENTARY TO TIME LINE # 1

The Background and Outline of this Time Line

In the beginning, we chose the mixed knowledge of good and evil over the pure and undiluted Word and commands of the Eternal One, and those who have made the choice to return to the pure Word and commandments of the Eternal One, and those who choose to continue in the way of “knowledge”, have been at battle with each other ever since.

The Scriptures are clear that the pursuers of “knowledge” rather than of Truth, will come to prevail over the earth, and subdue it, just prior to the restoration of the Truth at Messiah’s return. Daniel says of this generation, that the ability for everybody to travel effortlessly, accompanied by a tremendous increase of “knowledge”, will be two of the landmarks of the end time generation; **Daniel 12:4.**

This means that the truth of the Eternal One will be attacked and discredited more in this generation than in any generation prior. This can be clearly seen by the attack on the Scriptures today. There are so many translations now that anybody’s translation has become “acceptable” no matter how inaccurate, and doctrines have been reduced to the status of “opinions”.

We have also been taught that not only can no one know the time line of the Eternal One, but that it is somehow a “sin” to try and even propose that He has one. In this pursuit of knowledge, the “truth” of how to obey the Eternal One has been lost; the need for a Savior obscured, and now people, including many who profess to be believers, attempt to calculate the end of the world through guess work, or pagan calendars.

For example, as like with the year 2000 scare, through news in the political climate, through popular verses of Scripture while ignoring other Scriptures related to those prophetic subjects that go contrary to the popular interpretations of those verses, through Nostradamus, through astrology, by looking at the design of the Great Pyramid, or as of late, through the predictions of the Mayan calendar which people claim declares the end of the world in 2012. People look everywhere, but to the Word of the Eternal One, revealed from the beginning in His Set-Apart (Holy), and inerrant, Scriptures.

I have heard many “predictions” even come out of the mouth of religious leaders in various communities with dates of 2010, 2012, 2017 and 2031. And when asking any of them why they believe these dates, it became clear to me that none of them based their findings 100% on Scripture, all of them had elements of “educated guess work” built in to their time lines, and all of them had a tendency to interpret the Scripture through events and extraneous data, rather than interpreting the events and outside data through the inerrant Word of Scripture.

However, the Eternal One is precise in His work. All of the answers man needs to solve anything are found in, or can be determined through, the foundation of Scripture; and the work of chronology and eschatology is no different. As such, we are not to interpret the Scriptures to fit the time lines of Nostradamus, or of the Great Pyramid, or of the Mayan Calendar, but interpret these sources through the inerrant Word of Scripture.

These calendars and other sources, even if fundamentally accurate, which many of them likely are

not, still must be interpreted themselves. And when these sources themselves are interpreted, they also must be overlaid over the Gregorian calendar (which in itself is incorrect concerning the year of Yeshua's birth), or some other calendar, to produce a final date calculation, none of which can tell you where we are in relation to the prophetic calendar of Scripture.

For example, if the Mayan calendar were by some chance fundamentally accurate in projecting a 5125 year time frame to the end of the earth, by what foundation did the translator use to determine that the Mayan date of 5125 falls on the Gregorian date of 2012, instead of let's say, 2030 or some other date?

With the Set-Apart (Holy) Scriptures this can be determined precisely, because the prophecies about Yeshua extend from the time of Adam to the time of Yeshua's first and second comings, dates that can be precisely determined relative to the Gregorian calendar - if overlapped correctly.

All other calendars are tied to events in history which cannot be determined with absolute precision, but only through educated guess work. All of them, relative to Gregorian dates, or for that matter, any other extraneous calendar dating system, can be adjusted forward or backwards by years, and in some cases, even decades, depending on whose analysis and interpretation is being presented and taken into consideration.

On the other hand, the ancient teachers of Israel who the Eternal One appointed to write our Scriptures, as well as the ancient teachers of Israel who lived at the time, and/or who lived in close proximity to the time that the ancient Hebrew texts of our Scriptures were written prior to Yeshua's first coming, and who studied and taught only the Hebrew texts of our Holy Scriptures, taught that there would be two pictures of Messiah.

The first Messiah would be a suffering servant similar to Yoseph (Joseph), who would come on the 4th day (the year 4000) from Adam. He was referred to as "Ben Yoseph" or the Son of Joseph. The second Messiah would be a conquering King similar to King David, who would come on the 6th day (the year 6000) from Adam. He was referred to as "Ben David" or the "Son of David". And they taught that His Millennial Kingdom reign would begin at the coming of the King David version of Messiah.

We understand now that these two Messianic roles would be fulfilled by the one Man, Yeshua, the Son of the Eternal One. And as they taught, we also understand that the Eternal One's plan of redemption would span over a 7,000 year period.

The first, a 4000 year span extending from Adam and concluding at the beginning of Yeshua's Ministry in the year 4000 at His first coming as "Ben Yoseph/Son of Joseph" the suffering servant (the ancient teachers derived this from the 7 and 62 weeks of **Daniel; 9:25**). The second, the 2000 year span going from this point to His second coming; **Hoshea 6:2** in the year 6000 as "Ben David/Son of David".

Then finally, the third, 1000 year span of His Millennial Kingdom; **Revelation 20:4-6** where the last of Torah violation (sin) and death will be ultimately purged out of the earth in preparation of the restoration of the new atmosphere and earth where Paradise will be restored, and where only the righteous will dwell.

This Time Line will focus on the first two spans of respectively, 4000 years and 2000 years. And will demonstrate how it was after 3999 years had been completed from the time of Adam's creation in the year 4000, during the 80th Jubilee cycle from Adam, that Yeshua began His ministry; and how it will be after 5999 years have been completed from the time of Adam, in the year 6000, during the 120th Jubilee, to the time of Yeshua's return when He will establish His millennial reign.

"The Day and the Hour" Controversy

Yeshua teaches that no one knows the day or the hour, but this is not for reasons that the church believes. In **I Corinthians 15:51-54** it states that the dead shall be resurrected at the sound of the

last shofar (last trump). This phrase, “the last trump” is a reference to the Day of Trumpets (Yom Teruach) known today as Rosh Hoshanna, and coined by the ancient teachers of Israel to describe this day, long before Yeshua’s arrival; but preserved and still understood today to be a direct reference to the Day of Trumpets (Yom Teruach). The interesting thing about this day is that it is also the 1st day of the 7th new moon of the redemptive calendar – the day of which “no man knows the day or the hour” of its inception.

So though the Scriptures clearly show when the year 6000 from Adam will likely occur (as will be shown from the Time Line being discussed herein), and though the Scriptures show plainly that His arrival will occur on the Day of Trumpets/Yom Teruach (the day when the “last trump” is blown); **I Corinthians 15:51-54**, until that year arrives, and the 1st day of the 7th New Moon of the redemptive/harvest calendar is sighted from Israel on which Yom Teruach falls, it will be impossible to know precisely which day Yom Teruach, and therefore, Yeshua’s return, will take place in that year.

Likewise, when the actual day arrives, we will then still not know the hour. But the year? Even as He came the first time in the year 4000 as predicted by the ancient teachers of Israel concerning His role as Ben Yoseph, even so, He is likewise expected to return in the year 6000 from Adam in the role of Ben David, as also predicted by those same ancient teachers.

But I want to make it clear - this is not my prediction, or even the prediction of this ministry or of any of our staff. But rather a prediction of the ancient teachers of Israel who predicted centuries before Yeshua ever arrived, that the Messiah ben Yoseph, the Suffering Servant, would come in the year 4000 from Adam - which He did; and that the conquering King Messiah, ben David, (who is also Yeshua) would come in the year 6000 from Adam. So that if they were correct the first time - which they were, then it is reasonable to assume that they may be correct on the second calculation as well.

So the purpose of this time line presented herein is only to show when the biblical year 4000, and biblical year 6000, fall relative to the Gregorian calendar, if it has been properly overlaid on the Gregorian calendar.

I Thessalonians 5:1-4 teaches that when we walk as sons of light, and we know the appointed times, and when the harvests become ripe in their seasons, that the day of His return will not overtake us as a thief in the night; but that He will come as a thief only to those who do not know the appointed times or seasons, and who do not walk as sons of light.

How to Interpret the Time Line

Meaning of “0000.00.00” Date Formatting

Under the column heading “Years from Adam” you will occasionally see some numbers after the following format: 0000.00:00; this formatting represents “Years.moons.days”.

These fractional years are very important as the Eternal One is very precise in His calculation of things. There are numerous portions of this Time Line where the Scriptures do not provide any fractional years, so we can assume from this that when a fractional year is provided that it is because it is relevant and important to note, and therefore, should be included in any time line considerations and calculations.

Additionally, the years, moons, and days in these fractional years are to be read as follows:

If a passage states, it occurred “in” the 250th year, “in” the 3rd month, “on” the 12th day of the month, this means that 249 full years and a “fraction” of the 250th year has come to pass, that 2 full moons, and a fraction of a 3rd moon has passed, and that it is the 12th day of the 3rd “fractional” moon.

It is the same as we count today. If I say meet me “in” February, “on” the 12th day, that does not mean to meet me after 2 months and 12 days of the year have passed, but to meet me after 1 month of the year has passed, and on the 12nd day of the second month.

The key here is the word “in”. Whenever it says something occurred “in” a year, it means “in a fractional part” of that year. And whenever it says something occurred “in” a month, it means “in a fractional part” of that month. So that in the example above, if I were to express F-bruary 12th of the year 5012 from Adam on this Time Line, it would be written as: 5011.01.12.

This indicates that 5011 years have passed and we are now partially into 5012; and that 1 month of 5012 has passed, and that now the 12th day of the 2nd month has arrived.

Another example in our day of a similar way we count is with our centuries. For example, we are currently in the 21st century, but yet it is only the Gregorian year 2010, not 2110. That is because the phrase "21st century" means that 20 centuries (2000 years) of the Gregorian calendar that the world uses have passed, and that we are now 10 years into the partially fulfilled 21st century of the Gregorian calendar; the century of which will come to completion in the year 2100. Then in 2101, the 1st year of the 22nd century will commence. The date format “0000.00:00” (years.months:days) of this Time Line operates in a very similar fashion.

How to read the columns

TIME LINE #1									
The 6,000 Years (120 Jubilee Cycles) from Adam (3973 BC) to Yeshua's Return (2027 AD) and 1,000 Year Millennial Reign									
Line #	PERSON	BEGAT or To Event	AT AGE	Years from Adam	Years to 2nd Coming	In BC	Died BC	Total Life Span	Scripture References to "PERSON" Box
1	Elohim	(Created) Adam	N/A	0 Years	5999	3973	N/A	N/A	Gen. 1:26-27
2	Adam	Seth	130	130	5869	3843	3043	930	Gen. 5:1-5
3	Seth	Enosh	105	235	5764	3738	2931	912	Gen. 5:6-8

In this example, if you read “Line #3”, you would begin with the “Person” column, and read towards the “Scripture Reference” column as follows in Line #3,

| The person, Seth | begat Enosh | at age 105 | 235 years from Adam | 5764 years from 2nd Coming | in BC year 3738 | Seth Died in BC year 2931 | and had a total life span of 912 years | The Scripture Reference that this life of Seth is founded upon is **B’resheet (Genesis) 5:6-8** |

The Meaning of the Line #'s

The Line Numbers have been added to facilitate ease of referencing, but also to separate the necessary components of the Time Line from Optional sections of it. To follow the actual Time Line Chronology directly just go from numbered line to numbered line, and treat the non-numbered lines (the lettered lines A-I), as side bars and/or as notes and commentary of interest.

In other words the lines with letters in place of numbers can be removed without effecting the flow or integrity of the Time Line.

As an example, if you were on Line #21 studying the lineage from Avraham to Yit’zak (Isaac) and you wanted to go to the next point of the Time Line, you would go straight to Line #22, skipping sections C, D, E in between.

The 3 sections of C, D and E in between are just interesting, but not necessary to the integrity of the Time Line.

The grey column, and “B”, “P” and “R” in the colored cells, and “G” in the far right column.

The grey vertical column represents the core, or “trunk”, of this Time Line from which all of the other data branches off.

It begins with Adam and ends with Yeshua’s projected return in the year 6000 which appears to fall in the year 2027 AD of the Gregorian calendar.

The “G” marks in the far right column represent “General” events that are interesting to take note of,

but which are not necessary to establishing the integrity or accuracy of this Time Line. The “green” color in these rows marked with a “G” in the far right column means the same thing, but because some people may print out this Time Line in black and white, the “G” is supplied at the end of these rows to ensure that this meaning and identification is not lost to the reader for lack of color.

TIME LINE #1										
The 6,000 Years (120 Jubilee Cycles) from Adam (3973 BC) to Yeshua's Return (2027 AD) and 1,000 Year Millennial Reign										
Line #	PERSON	BEGAT or To Event	AT AGE	Years from Adam	Years to 2nd Coming	In BC	Died BC	Total Life Span	Scripture References to "PERSON" Box	
D	**From the Promise	To the Exodus Passover	430 1/2	Exodus 2508 1/2	Exodus 3491	Exodus 1465	N/A	N/A	Ex.12:40,41; Gal. 3:16,17; *note D & Time Line #2	

The “B” in an interior cell stands for blue and represents the water of the flood, and serves the purpose of identifying this row with the flood in the event that the blue coloring is lost through any printing/photocopying process done in black and white.

TIME LINE #1										
The 6,000 Years (120 Jubilee Cycles) from Adam (3973 BC) to Yeshua's Return (2027 AD) and 1,000 Year Millennial Reign

Why Jubilees? Why not just 6000 years and be done with it?

Jubilees are important for several reasons. For one, a Jubilee represents when the Land is to rest, slaves are set free, and ultimately, when all of the Eternal One's people have their inheritance restored to them.

For two, Jubilees are important in determining the accuracy of any given biblically based time line.

For example, the picture of the walls of Jericho falling on the 51st Jubilee from Adam is a picture of the 2nd coming of Yeshua at the 120th Jubilee where Babylon will fall, where the nations will be conquered, and where our inheritance will be restored. So one test for an accurate time line is whether it reflects a Jubilee year in the year that Jericho was conquered.

King Chezkiyah (Hezekiah) also had a Jubilee occur within his reign; **Melekim Bet (2 Kings) 19:29**, so in order for any alleged biblically based time line to be correct, a Jubilee must fall sometime during King Chezkiyah's (Hezekiah's) time as well.

Also, in **Luke 4:19** Yeshua proclaimed a Jubilee year at the beginning of His ministry in the year 27 AD, so the 80th Jubilee from Adam must also occur in this year that Yeshua made His proclamation, in addition to the two others, in order for a biblically based calendar to be reliable.

Thirdly, in Noah's day the Eternal One said that His Spirit would not strive with man forever, but that His years would be 120.

The ancient teachers of Israel taught that from the time of this declaration to the time of the destruction of the world through flooding was 120 years. This provides a microcosmic picture for us for when the world will be destroyed the next time by fire after 120 Jubilees at the macrocosmic level.

120 Jubilees is 6000 years. The ancient teachers of Israel who taught prior to Yeshua's first coming taught that there would be 4000 years (80 Jubilees) from Adam to the suffering servant Messiah (Ben Yoseph), followed by 2000 years (40 Jubilees) to the conquering King Messiah (Ben David), a total of 120 Jubilees, or 6000 years.

This corresponds with the picture of Moshe (Moses) who, in His 80th year, brought Israel out of the bondage of slavery. It also corresponds with his 120th year when he brought the nation of Israel to their entry point in the Promised Land where "Yeshua", the son of Nun, would take them into the Promised Land as conquerors.

These in turn parallel Yeshua (a prophet like unto Moshe; **D'varim [Deuteronomy 18:18]**) who, as an afflicted servant and lawgiver in the 80th Jubilee from Adam, brought us out of the bondage of sin like Moshe (Moses) did. And who will likewise, as a conquering King in the 120th Jubilee from Adam, bring us to our entry point in the Promised Land as Joshua the son of Nun did.

This 120th Jubilee (the year 6000) is likewise projected to occur from fall of 2027 to fall of 2028 of the Gregorian calendar.

It is interesting to note in light of this picture that Israel was restored as a nation in 1948, for the 80th year from 1948 is 2028, the same year that the 120th Jubilee will come to completion (Fall 2027 to Fall 2028). Even as Yeshua stated, "...this generation will not pass away until all these things have come to pass"; **Mattit'yahu (Matthew) 24:34**. As of 2007, there remains approximately 244,000 holocaust survivors living in Israel (and not counting those living abroad), who have not yet passed away. See the following link: http://www.claimscon.org/forms/brookdale_2008.pdf

Jubilee cycles, 50 years or 49 years?

This is a question usually only among Christians and some Messianics from Christian backgrounds; but historically, and biblically, it has been understood and observed as the 50th year occurring after a set of 7 Sabbath year cycles of rest for the land - with the 7th Sabbath year cycle of rest for the land being followed by a second year of rest for the land in the year of Jubilee; **V'yikra (Leviticus)**

25:4,11. In other words, every 50th year.

Shavuot (Pentecost) is a microcosm of this pattern for those who are confused about a similar debate in Christian circles, and in some Messianic circles from Christian backgrounds, revolving around the counting of the Omer. But simply put, one is a picture of the other and vice versa, and the count in the Hebrew in both cycles both equals a sum total of 50 at the end of their respective cycles, and is not made up of a count of 7 sevens, but of 7 Sabbaths. Keep it simple and don't let the debates lead you astray from the simplicity of the count.

WHY JUBILEE TO JUBILEE INSTEAD OF PESACH (P_{assover}) TO PESACH (P_{assover})?

The Scriptures contain 3 calendars.

There is the "**Redemptive**" calendar which begins with the Aviv Moon at Pesach and ends with Sukkot and Shimini Atzeret in the 7th Moon; it governs all of the Appointed Times which are prophetic of the "Redemptive" work of Yeshua in, and for, His people. The Redemptive calendar is 6 months long.

Then there is the "**Regnal**" calendar which determined the inauguration dates of the Kings of Judah. It extends from Yom Teruach to Yom Teruach.

This time line, which is based upon Jubilee cycles that have passed since the creation of Adam on the 1st Yom Teruach, causes the birth of Yeshua to fall naturally, and in a very precise way, on the 1st day of Sukkot occurring on September 25, 3 BC, the year that He came to "Tabernacle/Dwell" with us as stated in **Yehochanan (John) 1:14**; and which followed after the first sighting of the Star of Bethlehem that took place 14 days earlier on Yom Teruach, September 11, 3 BC in proclamation of the King Yeshua's ultimate arrival. **See Note 9.**

It is also important to note concerning the regnal year, that the fractional portion regnal years are always "rounded" to the nearest coronation day with the exception of those who ruled for 6 months or less, like in the case of Yehoahaz/Shallum (**Line #41**) and Yehoyakin/Yecon'yah (**Line #43**). So if a king reigned 3 years and 10 months, his reign would be counted as 4 years. Likewise, if the following king reigned 5 years and 2 months; his reign would be counted only as 5 years, for a total of 9 years between the two kings for it is only the actual number of coronation days that have passed that determined their years.

For example, King David ruled over Judah for 7 ½ years, and for 33 years from Jerusalem over all of Israel and Judah; **2 Shemuel (2 Samuel) 5:5**, a total of 40 ½ years, but in the immediate verse prior, **Verse 5:4**, and in every other instance of the account, the Scriptures state that King David ruled for a total of 40 years. So in the sum total of his reign, the ½ year was not counted toward the 7. Why? Because only 40 coronation days/regnal years had passed in his life during his time of kingship, and any fraction of 6 months or less are not counted.

Then finally, there is the "**Jubilee**" calendar.

It occurs every 50th year following the completion of 7 sabbatical years. It is proclaimed every 50th year on Yom Kippur (The Day of Atonement) and is done at this time to allow ample time for the lands that were leased out over the previous 49 years, to be restored to their previous owners; and for those previous owners to return to those lands of their inheritance before the next agricultural cycle begins. It is also the year in which Yeshua's 1st and 2nd comings respectively take place – that is, on the 80th and 120th Jubilees.

Likewise, though He does come 10 days prior to the 120th Jubilee on Yom Teruach to resurrect His army; **I Thessalonians 4:13-16**; **Yechezk'el (Ezekiel) 37**, He does not **come down to the earth, or touch the Mount of Olives**; **Zechar'yah (Zechariah) 14:4**, or take over the Kingdoms of the earth; **Yechezk'el (Ezekiel) chapters 38 & 39** until Yom Kippur (Day of Atonement) 10 days later, at the inception of the 120th Jubilee, at the blowing of the "Great Shofar" (Great Trumpet); **Yesh'yahu (Isaiah) 27:13**; **Mattit'yahu (Matthew) 24:27-31**; **I Corinthians 15:51-54**; **I Thessalonians 4:17**.

So since a main purpose of this Time Line is to show the year of His 1st coming (and by way of extension – His 2nd coming), the Jubilee years provide an important basis for the integrity and accuracy of this time line that sets it apart from that of other authors who base their chronology on the years 1917 and 1967, rather than on the biblical record.

COMMENTARY TO NOTES

Line #	PERSON	BEGAT or To Event	AT AGE	Years from Adam	Years to 2nd Coming	In BC	Died BC	Total Life Span	Scripture References to "PERSON" Box
11	Noach	To End of Flood B	600.01:27	1656.01:27 B	4342	2317 B	1967	950	Gen. 8:13,14; 9:28,29; *note 1

NOTE *1, From Noach to the End of the Flood. Founded upon B'resheet (Genesis) 8:13,14; 9:28,29.

In **B'resheet (Genesis) 7:11** it is shown that the Flood dates provided in these passages are relative to the age of Noah.

As it is written, *"In the 600th year of Noah's life...the windows of heaven were opened and it rained upon the earth 40 days and 40 nights."* So now in **verse 8:13** when it says, *"And it came to pass in the 601st year, in the 1st moon, the 1st day of the moon, that the waters were dried up from the earth"*, this means 600 years of Noah's life has passed, and that he is now at least 600 years old; and at least one day now partially into his 601st year.

However, for purposes of this Time Line, we will go from the time of Noah's birth, to the time of the conclusion of the flood, which is revealed to us in **verse 8:14**, where it is written, *"In the 2nd moon, on the 27th day of the moon, the earth was dried."* And Noah, his family, and all the animals came out of the ark; **verse 8:15-19**.

That is, the flood ended *"in" the 2nd moon, on the 27th day of the moon, "in" the 601st year* of Noah's life.

Remember earlier that I stated that the word "in" is critical in determining what is meant by these numbers. For example, we are currently living "in" the 21st century, yet it is only the year 2010, not 2110, that is because a century is made up of 100 years and so therefore takes 100 years to "fill up" or come fully to pass, which means that 2010 is "10" years into the completion of the "21st" century, but will not be complete until 2100. Then in 2101 it will become the 1st year of the 22nd century.

In the same way, when the Scriptures say that the Flood ended "in" the 601st year of Noah's life, this means that Noah has lived 600 years and a fraction of 1 year up to this point. And when they say that the Flood ended "in" the 2nd moon of this partially fulfilled 601st year of Noah's life, it means that Noah had lived at least 600 years and 1 moon up to this point. Add to this 27 days, and it is like saying, *"In the 2nd month of February, on the 27th day, 600 years after Noah was born, the Flood came to an end and the earth was dry."*; except that the 2nd Moon would have been more like Apr-l or M-y by the biblical calendar.

This Time Line only counts actual time passed so this is expressed in this Time Line as, "600.01.27", meaning, that by the time the Flood had ended, and the earth had dried up, Noah had been alive for 600 years, 1 moon cycle, and 27 days.

The Age of Noach.

Take note that Noach lived 350 years after the flood (a total of 950 years) and so died only 2 years prior to the birth of Avraham. Noach also outlived, Peleg (a 4th generation descendant from the flood who died at age 239), and Nahor (a 7th generation descendant from the flood who died at age 148).

Line #	PERSON	BEGAT or To Event	AT AGE	Years from Adam	Years to 2nd Coming	In BC	Died BC	Total Life Span	Scripture References to "PERSON" Box	
A	**Noach	To Shem	502	1558	4441	2415	1967	950	Gen. 11:10 *note A	B

NOTE *A, (**non-essential part of Time Line but interesting), from Noah to Shem to establish the date of Shem's birth.

Founded upon **B'resheet (Genesis) 11:10**, it is stated that Shem was 100 years old when he fathered Arphaxad two years after the flood. Because Noah had lived 600 years by the end of the Flood, and Shem was 100 years old 2 years after the flood, that means that Noah was 502 when Shem was born ($600 + 2 = 602 - 100 = 502$).

B	**Shem P	To End of Flood	98	1656	4343	2317	1815 P	600	Gen. 11:11 *note B	B

NOTE *B, (**non-essential part of Time Line but interesting), from Shem to end of flood to establish the date of Shem's death, and show the timing of Shem's life relative to Avraham's life. Founded upon **B'resheet (Genesis) 11:11**.

Shem was 100 years old when he begat Arphaxad 2 years after the flood; **B'resheet (Genesis) 11:10**.

Verse 11:11 states that Shem lived 500 more years after begetting Arphaxad, which means he lived from 2415 BC to 1815 BC ($2415 - 100 = 2315 - 500 = 1815$). This is interesting to note, because Avraham was born in 1965 BC making Avraham 150 years old by the time Shem died ($1965 - 1815 = 150$).

Likewise, Yit'zak (Isaac) was born in 1865 BC making Yit'zak (Isaac) 50 years old by the time Shem died. So both Avraham and Yit'zak (Isaac) were contemporaries with Shem, and direct descendants of Shem.

This adds credence to the legacy of Shem being Melchizadok, who, outside of his brothers Ham and Yapheth (if still alive), would have been 468 years older than anybody else on earth at the time of Avraham's generation. It is also interesting to note that Avraham was a contemporary with Arphaxad, Shelach, and Eber for respectively 88, 118, and 175 years before he died; and so would have had firsthand knowledge from Shem about how the world was prior to the flood, as well as firsthand knowledge though Shem, Arphaxad, Shelach, and Eber about the post flood conditions of the world after the flood and tower of Babel.

Keep in mind also that Shem died at age 600, and the other 3 at ages 438, 433, and 464 respectively; and so were no doubt kings of the earth over those living to age 240 or less at that time after the Tower of Babel; with Shem being the oldest king, Melchizadok himself, the title of which means "King" (Melchi) "of Righteousness" (Zadok), or "Righteous King".

It is also interesting to note that Arphaxad, Shelach, and Eber all outlived the 5 generations following Eber; and that Shem himself outlived Arphaxad and Shelach as well as those same 5 generations.

This could explain the possible origin of the phrase "May the king live forever" for these kings in the earth would certainly have seemed immortal to those 5 generations who lived and died under the seemingly endless reigns of these 4 greatly aged men.

12	End of Flood	To Arphaxad	2 years	1658	4341	2315	N/A	N/A	Gen. 11:10 *note 2	

NOTE *2, From the end of the flood to Arphaxad to establish where the essential part of the lineage and events of the Time Line pick back up again. Founded upon **B'resheet (Genesis) 11:10**.

Simply put, measuring the dates to and from the end of the flood is the most precise and simple point to use for lay out of this time line.

Therefore this point, 2 years after the Flood, is where the essential part of the time line picks back

up and continues. So essentially, it goes from Noah to the end of the Flood, and then from the end of the Flood to Arphaxad. The end of the flood was in the year 1656 from Adam. Shem was only introduced (see **note *B** above), because he was a contemporary with Avraham and Yit'zak (Isaac), and according to the Book of **Yasher (Jasher) 16:11** (referred to in **Yeshua [Joshua] 10:13 and 2 Shemuel [2 Samuel] 1:18**), was Melchizadok himself.

13	Arphaxad	Shelach	35	1693	4306	2280	1877	438	Gen. 11:11-13; Note *3

NOTE *3, Take note that we do not use the extra Cainan mentioned in **Luke 3:36** in our Time Line. This extra Cainan in the book of Luke does not exist in the oldest manuscripts of the genealogies of **B'resheet (Genesis) 11:12,13**.

Likewise, the **B'resheet (Genesis) 11** account only contains the extra Cainan in the more recent copies of the Septuagint (LXX); while the oldest copies of the Septuagint do not contain the extra Cainan. Other older sources that do not include the extra Cainan are: the Masoretic Text (from which this Time Line is taken), the Samaritan Pentateuch, the Targum, the parallel passage in I Chronicles, and even the oldest copy of Luke. Josephus and Africanus also did not list it in their writings, and no early church leaders mentioned it prior to 220 AD. It is also not in the most ancient Beza copy of Luke.

The conclusion in the absence of the extra Cainan in these sources indicates that the extra Cainan was inserted at a later time as a result of a scribal error, which in turn made its way into numerous copies of Luke and then into more recent copies of the Septuagint written and dated after Luke's time.

More points on this subject can be found in an article entitled, "**Cainan**", written by Dr. Jonathan Sarfati (*Sarfati, J.D., Cainan of Luke 3:36, CEN Technical Journal 18(2) 2004, pages 41-43*) and Larry Pierce (*Pierce, L., Cainan in Luke 3:36: insight from Josephus, CEN Technical Journal 13(2) 1999, pages 75,76*). The articles can be found at www.creation.com.

20	Terah	Avraham P	130	2008	3991	1965 P	1890	205	Gen. 11:32; 12:4; Acts 7:2-4 *note 4

NOTE *4, From Terah to Avraham to establish the age of Terah his father when Avraham was born, and the life of Avraham relative to the life of Shem. Founded upon **B'resheet (Genesis) 11:32; 12:4; Maaseh (Acts) 7:4**.

In **B'resheet (Genesis) 11:26** it states that Terah was 70 when he fathered Avram, Nahor, and Haran, implying that Avraham was possibly 135 years old when his father Terah died at age 205 (205-70=135).

However, Terah died in Haran at age 205 (**verse 11:32**), and Avraham, at age 75 (**verse 12:4**), left Haran shortly after the death of his father; **Maaseh (Acts) 7:4**. So if Terah died in Haran at age 205, and Avraham at age 75 left Haran shortly after his father's death, then this makes Terah 130 years old when Avraham was born, not 70 (205-75=130). So **B'resheet (Genesis) 11:26**, is only saying that Terah began having sons at age 70, with Avraham apparently not being the first born.

The year 1965 is highlighted in purple here to show Avraham as a contemporary with Shem who was Melchizadok (the Righteous King) to that generation. (See *Note B* for more information on this).

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To "Event or Reign" Box
C	**From the Promise	To the Exodus Passover	430 1/2	Exodus 2508 1/2	Exodus 3491	Exodus 1465	N/A	N/A	Gen.12:1-3; Gal. 3:16,17; *note C and Time Line #2.

NOTE *C, (**non-essential part of Time Line but interesting), the Promise to the Exodus and first Passover to explain the extra 6 months (½ year) added to this section of the calculation and to present the basis for **Note *D**. Founded upon **B'resheet (Genesis) 12:1-3; Galatians 3:16,17**.

From the time of the Promise given to Avraham; **B'resheet (Genesis) 12:1-3**, to the time of the Exodus from Egypt, was 430 years; **Galatians 3:16,17**.

The beginning of the Redemptive calendar begins in the “Spring” with the Aviv moon of Pesach when they left Egypt. So if Adam had been created on Passover, then 2508 years from Adam would have passed from Adam to the Exodus at this point.

However, this time line in counting to Yeshua’s 1st and 2nd comings based on Jubilee year cycles past, is based on a formation of Adam from the dust of the earth on Yom Teruach (Day of Trumpets) rather than at Passover, and so counts from Jubilee cycle to Jubilee cycle. The years and cycles of the Jubilee begin in what we call “Fall”, and initiate on the day known as Yom Kippur (the Day of Atonement).

So this year from Adam of 2508, for purposes of this Jubilee cycle based Time Line, would have began in the Fall, causing this Passover in which the Exodus took place; **Shemot (Exodus) 12:40,41**; to occur in what we would call “Spring”, 6 moons later, or 2508 ½ years from Adam, thereby adding ~6 months by the time the Exodus arrives.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To “Event or Reign” Box	
D	**From the Exodus Passover	To Jericho and the 51st Jubilee from Adam	40 1/2	2549 yrs. complete. 51st Jubilee occurs. Y	Jubilee 3444	Jubilee 1418	N/A	N/A	Ex.7:7; Deut. 34:7; Joshua 5:10-6:20; *note D	G

NOTE *D, (**non-essential part of Time Line but interesting), from Exodus and the first Passover to Jericho to show correlation between the conquest of Jericho and the 51st Jubilee from Adam. Founded upon **Shemot (Exodus) 7:7; D’varim (Deuteronomy) 34:7; Yeshua (Joshua) 5:10-6:20**.

Moshe (Moses) was 80 when first speaking with Pharaoh and coming out of Egypt; **Shemot (Exodus) 7:7**, and age 120 when arriving at the Promise Land; **D’varim (Deuteronomy) 34:7**.

When you add the 40 year wilderness experience (120-80=40) to the year of the Passover in 2508 ½ from Adam as noted in ***Note C** above, and then add another 6 moons to that to bring us to Yom Teruach (The Day of Trumpets/Day of Shouting/Rosh Hoshanna) of the year 2549 from Adam when Jericho was destroyed, we end up at the beginning of a Jubilee Year extending from Yom Kippur of 2549 to Yom Kippur of 2550. To be precise, this is the 51st Jubilee year from Adam.

This is interesting because the blowing of the trumpets for 7 days, and the circling (sealing) of the city 7 times when marching around it, the shouting, the walls of the city falling, and the conquering of the land by “Yeshua” the son of Nun, are all types and shadows of what “Yeshua” the Son of the Eternal One will look like at His 2nd coming (as described in Revelation) on the 120th Jubilee from Adam. So it is entirely befitting that “Joshua’s” conquest of Jericho, and of the Promised Land, would also begin upon commencement of a Jubilee year as even Yeshua's return will occur on.

For some correlations between these types and shadows see **I Corinthians 15:51,52** that speaks of the sound of the "Last Trumpet" (like the last trumpet blast that caused Jericho to fall); and **I Thessalonians 4:16** where a shout with the sound of the trumpet is described (like the trumpet and shout that caused Jericho to fall).

Then you have **Revelation 5:1** with the 7 seals introduced (like Israel sealed the city of Jericho when walking around it 7 times) and **Revelation 8:6** where the 7 trumpets are introduced (like the trumpets blown seven times at Jericho), and **Revelation 18:1,2** with **Yechezk'el (Ezekiel) 38:19,20** where Babylon and every wall falls (like the walls of Jericho fell).

These, along with many other examples in Scripture of "Jericho like" activities, are prophesied to occur at the time of Yeshua's return.

E	**From Jericho and the 51st Jubilee from Adam	To first 7th year Sabbatical after conquering the Land	7	Sabbatical 2556	Sabbatical 3444	Sabbatical 1418	N/A	N/A	Joshua 11:23; 14:6,7,10; *note E	G

NOTE *E, (**non-essential part of Time Line but interesting), from Jericho to the first 7th year Sabbatical rest in the Promised Land determined by Caleb’s age at the time of the conquest of the land. Founded upon **Yeshua (Joshua) 11:23; 14:6,7,10**.

Note *D brings us to the 51st Jubilee where Jericho fell in the year 2549 from Adam. **Note *E** here then takes us to the Sabbatical year that took place 7 years after the fall of Jericho, which in turn

confirms the year 2449 to 2550 to be a Jubilee Year.

Let's begin with the age of Caleb at the time the wars had ended, and the conquered land divided up among the tribes of Israel.

In **Yehoshua (Joshua) 14:6,7** it is written that Moshe (Moses) sent Caleb out from Kadesh Barnea to spy out the land of Canaan when Caleb was 40 years old, and then in **14:10** Caleb states at this time, after Canaan had been conquered, and he and the others were receiving their inheritance in the conquered land, that he was now 85 years old. Meaning that from the time he was sent out from Kadesh Barnea to spy out the land to the time of the dividing of the inheritance after their conquest of the land, was a span of 45 years.

Kadesh Barnea (where Caleb and the other 11 spies had brought back their report of the land to Moshe) is recorded in **B'midbar (Numbers) 13:2-33**.

In **D'varim (Deuteronomy) 2:14** it states that the time span from the time they left Kadesh Barnea to the time they crossed over the Brook Zered was a total of 38 years.

So to see how long it took to conquer Canaan, we take the age of Caleb at the time he spied out the land, which is age 40, and add 38 years to that, which makes him age 78 at the time of Jericho by the year 2549 from Adam (1425 BC). And now after conquering the land and dividing up the inheritance of the land, he is now 85 years old, and it is now the year 2556 from Adam (1418 BC).

This shows that it took 7 years to conquer Canaan from the time of Jericho.

So now, if you take that 1st year of the 7, going from 2449 to 2450 (the Jubilee Year), then add 6 years to it, we are brought to the year 2555 to 2556 from Adam for the 6th year after the Jubilee Year, and 7th year from Jericho. This makes the 7th year from the end of the Jubilee (the year 2556 to 2557), a Sabbatical year of rest for the land. **Yehoshua (Joshua) 11:23** states that this year (the year that the wars ended and the land divided up) is the year that the land "rested".

This confirms the year 2449 to 2550 as a Jubilee not only because this year from Adam's creation is divisible by 50, but also because if it was just a Sabbatical year rather than a Jubilee year, then the next Sabbatical year would have fallen in 2555 to 2556 instead of from 2556 to 2557.

To briefly clarify, Sabbaticals occur every 7th year following a Jubilee year for a maximum of 49 years and beginning over again upon completion of the 50th year Jubilee causing the years from Adam ending in "51" and "01" to be the 1st years of each new 49 year cycle.

Simply put, a 2449 Sabbatical year + 7 years to the next Sabbatical year would = 2556, whereas a 2449 Jubilee year + 1 year to complete the Jubilee year (2449 to 2550) + 7 years to complete the next Sabbatical year would = 2557.

Also, to add further reinforcement to 2449/2450 as a Jubilee year followed by a Sabbatical year in 2556/2557, is the fact that it is Scripturally impossible for a Sabbatical year in this Time Line to cross from a year ending in "49" and end up in a year ending in "56" for the 49 year Sabbatical cycles always end in years ending in "49" and "99" and begin fresh again in years ending in "51" and "01" respectively. Therefore, the year 2556 from Adam marks the beginning of a Sabbatical year going from Fall of 2556 to Fall of 2557.

22	From Isaac	To the Exodus Passover R	400	2508 R	3491	1465 R	1685	180	Gen.15:13; Acts 7:1-6; Gen.35:28; *note 5

NOTE *5, From Yit'zak (Isaac) to the Exodus and first Passover, and explaining the discrepancy between the 430 year period and the 400 year periods mentioned respectively in **Shemot (Exodus) 12:40,41** and **Galatians 3:15-17** and **B'resheet (Genesis) 15:13; Maaseh (Acts) 7:1-6**. Founded upon **B'resheet (Genesis) 15:13; Maaseh (Acts) 7:1-6**.

B'resheet (Genesis) 15:13 as noted above states that Avraham's descendants would be foreigners in a country not their own for 400 years.

Maaseh (Acts) 7:1-6 states the same thing.

So which “first born” son do we count as Avraham’s “first” descendent for purposes of fulfilling this prophecy? Ishmael or Yit’zak (Isaac)? As noted above, **Galatians 4:22-28** state emphatically that Yit’zak (Isaac) was. But to build upon this we can also know that Yit’zak (Isaac) is the one because in **B’resheet (Genesis) 15:13**, it states that his descendants would not only live as foreigners in lands that were not their own, but that they would experience affliction in these lands, and eventually become servants (slaves).

Ishmael certainly qualifies as a foreigner in a land not his own, but his descendants were not afflicted, and likewise, never became servants (slaves). The Eternal One also states that the nation his descendants would become enslaved to would be judged, and that his descendants would come out with great possessions; **B’resheet (Genesis) 15:14**, all of which is confirmed as being none other than Avraham’s descendants through Yit’zak (Isaac) as can be seen in the Exodus account when the sons of Israel came out of Egypt; **Shemot (Exodus) 12:29-38**.

Also, in **B’resheet (Genesis) 18:1-15**, we see that Avraham’s first born son through Sarah is the one that was promised to Avraham and Sarah through divine intervention, as this birth was prophesied to them directly through the mouth of Heavenly Messengers (Angels), whereas Ishmael was not.

So being that Yit’zak (Isaac) is the “first” of Avraham’s descendants who would be both a stranger in a land not his own, and whose descendants would be the ones who would be afflicted, enslaved, and ultimately delivered out of Egypt through great judgments pronounced upon Egypt by the Eternal One, and who would leave Egypt with great possessions, then we know that this 400 year period must begin with Yit’zak (Isaac).

So why then does **Shemot (Exodus) 12:40** state, “Now the length of the stay of the sons of Israel who lived in Egypt was 430 years.” If it was only supposed to be 400?

The English translations certainly give this impression, however, this is not saying that those who had been in Egypt had lived in Egypt for 400 years, for as it says in **B’resheet (Genesis) 15:14-16**, they would come out of Egypt in the 4th generation.

If you count 4 generations back from Moshe (Moses), you end at Levi who had entered Egypt only about 210 years earlier (Levi, Kohath, Amram, Moshe); [*See Time Line 2 on the 430 years from Avraham to the Exodus*].

So the 430 years stated is saying that the length of the sojourn from the time of Avraham, who was also a stranger in a foreign land, to the time his descendants through Yit’zak (Isaac) and Yaaqov (Jacob) had come out of Egypt at the time of the Exodus, was a total of 430 years.

Remember, Avraham left Haran at age 75; **B’resheet (Genesis) 12:4**. However, according to **Maaseh (Acts) 7:1-3**, the Eternal One gave Avraham “the Promise” **B’resheet (Genesis) 12:1** before he came to Haran – that is, He gave him the Promise sometime before age 75.

To pinpoint Avraham’s age at the time of the Promise **Galatians 3:16,17** states that “the Promise” was given to Avraham 430 years prior to the giving of “the Law” at the time of the Exodus. And **B’resheet (Genesis) 15:13** states that his descendants would be strangers in a foreign land for 400 years.

Yit’zak (Isaac) was his first descendant of the Promise to be enter the land as a foreigner. He entered it by way of birth, his birth of which took place when Avraham was 100 years old. So the first year of the 400 year prophecy was Avraham’s 100th year. This means that the 1st year of “the Promise” concerning the parallel 430 year prophecy leading up to the “giving of the Law” at the time of the Exodus was Avraham’s 70th year.

So “the Promise” was given to Avraham at age 70, five years prior to his departure from Haran, and 430 years prior to the exodus. This in turn, 30 years later at age 100, began the 400 year period leading up to the exodus where his descendants would be foreigners in a land not their own.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To "Event or Reign" Box
23	Exodus	Shlomo (Solomon)	476	2984	3015	989	N/A	N/A	I Kg. 6:1; *note 6

NOTE *6, From Exodus and first Passover to the 1st year of Shlomo (Solomon). Founded upon **I Kings 6:1**.

The Scripture here states that Shlomo (Solomon) began to build the Temple "in" the 480th year after Israel came out of Egypt, and "in" the 4th year of his reign. This is the same as saying, "After" 479 years had passed from the Exodus, "after" Shlomo (Solomon) had reigned for 3 years...they began to build the Temple.

So we can calculate the **1st year** of Shlomo's (Solomon's) reign as follows:

The 4th year of Shlomo's reign is "in" the 480th Year after the Exodus Passover, with 479 complete.

The 3rd year of Shlomo's reign is "in" the 479th year after the Exodus Passover, with 478 complete.

The 2nd year of Shlomo's reign is "in" the 478th Year after the Exodus Passover, with 477 complete.

The 1st year of Shlomo's reign is "in" the 477th year after the Exodus Passover, with 476 complete.

So the 1st year of Shlomo's reign is 476 complete years after leaving Egypt.

F	**Chezkiyah's 1st year of his 29 year reign	Assyrian Invasion of Judah in 14th year	(14 of 29)	3292	2707	681	641	54	2 Kings 18:13-16; 20:6; Is.36:1 *note F

NOTE *F, (**non-essential part of Time Line but interesting). From the time of the Assyrian invasion and military control of Judah to the end of the invasion, distinguishing the differences between the events of **Melekim Bet (2 Kings) 18:13-16 and 18:17 through 19:37**. Founded upon **Melekim Bet (2 Kings) 18:13-16; Yesh'yahu (Isaiah) 36:1**.

This passage from **Melekim Bet (2 Kings) 18:13 through 19:37**, can at first glance appear to be one account describing everything occurring "in the 14th year" of King Chezkiyah's (Hezekiah's) reign.

However, upon closer examination of the Scriptures, and in light of Assyrian archeological records that have come to light, it is now confirmed that this passage is describing two specific encounters with the King of Assyria during a time that King Chezkiyah (Hezekiah), and Jerusalem and all Judah, were brought under the military control of the King of Assyria. The military control of which "began" with the first encounter with the King of Assyria in the 14th year of King Chezkiyah's (Hezekiah's) reign; **verse 18:13**, but which did not end until 6 years later at the time of King Chezkiyah's (Hezekiah's) second encounter with the King of Assyria just prior to the Year of Jubilee.

Upon further examination, it can be seen that the first encounter, which occurred in the 14th year of King Chezkiyah's (Hezekiah's) reign, is covered from **Melekim Bet (2 Kings) 18:13-16**; and the second encounter, at the end of this military occupation by Assyria 6 years later, is covered from **Melekim Bet (2 Kings) 18:17 through 19:37**.

This **Note *F** will cover the events of the first instance described in **Melekim Bet (2 Kings) 18:13-16**.

Note *G will cover King Chezkiyah's (Hezekiah's) second encounter in **Melekim Bet (2 Kings) 18:17 thru 19:37**.

In this first passage we will lay out the key events of the first encounter.

In this 14th year of King Chezkiyah (Hezekiah), Sennacherib, King of Assyria, came up against the Southern Kingdom of Judah, and invaded and captured all of Judah's fortified cities, (though he did not invade Jerusalem), causing all of Judah to become militarily confined by and subject to the King of Assyria.

This capture of Jerusalem, the final, and strongest, fortified city of Judah, was avoided as a result of King Chezkiyah's (Hezekiah's) offer to pay whatever tribute the King of Assyria demanded.

The tribute that the King of Assyria demanded, and received, was 30 talents of gold (approx. 3000 pounds) and 300 talents of silver (approx. 30,000 pounds).

In order to meet this demand, King Chezkiyah (Hezekiah) had to take all the silver and gold in his own personal treasury, and in the treasury of the Temple, as well as strip off all the gold that was on the doors of the Temple to meet the King of Assyria's demand, a desperation of action which King Chezkiyah (Hezekiah) would have done only if there was no more gold or silver left anywhere else in the city to meet that demand for tribute with.

With this money, the King of Assyria now leaves Jerusalem, but keeps all of Judah under military occupation, and all of her surrounding cities under siege, with the exception of Jerusalem; apparently preferring the offer of tribute in place of losing a good portion of his men in an attempt to take over the well fortified city of Jerusalem.

From this point onward, though King Chezkiyah (Hezekiah) has had Jerusalem spared from battle through the payment of the tribute, Jerusalem would remain militarily confined by, and subject to, the King of Assyria until King Chezkiyah (Hezekiah) could find a way to break free of Assyria's military control over him and his cities.

Take note also that the 14th year of King Chezkiyah's (Hezekiah's) reign is also when he became terminally ill, but was spared from death through his prayer of humility to live another 15 years. This comes from **Melekim Bet (2 Kings) 20:1-6**.

At first glance, because this sickness is mentioned after the Assyrian army is killed it appears that his sickness takes place after the Jubilee and after the Assyrian defeat. However, King Chezkiyah (Hezekiah) ruled only 29 years before dying. So when subtracting the 15 years of life that was added to him after being cured of his sickness, we end up in the 14th year of King Chezkiyah's (Hezekiah's) reign (29 – 15 =14). The same year the first invasion by the Assyrian army took place in **verse 18:13**.

This is further confirmed in **verse 20:6** itself when the Eternal One states at the time of King Chezkiyah's (Hezekiah's) sickness that He will deliver both King Chezkiyah (Hezekiah) and the city of Jerusalem from the king of Assyria, showing that the Jubilee had not yet passed, and the Assyrian army had not yet been defeated at the time of King Chezkiyah's (Hezekiah's) sickness, thereby placing **verse 20:6** (or more specifically, the passage of **verse 20:1-11**) in the same place chronologically as **verse 18:13**.

Please go to **note *G** for the remainder of the events which occurred during this 6 year subjection and military occupation of Judah under Assyria.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To "Event or Reign" Box

NOTE *G, (**non-essential part of Time Line but interesting). From the attempted Assyrian invasion of Jerusalem to the 66th Jubilee from Adam. Founded upon **Melekim Bet (2 Kings) 18:17-19:37; 2 Chronicles 32:9-21; Yesh'yahu (Isaiah) 36:2-37:38**.

Now continuing on from **note *F**, we will cover the remainder of events occurring at the conclusion of the 6 year period of military control initiated in **Melekim Bet (2 Kings) 18:10**. This remainder of events beginning with **Melekim Bet (2 Kings) 18:17** and extending through **19:37**.

As stated in **note *F**, though King Chezkiyah (Hezekiah) has had Jerusalem spared from battle through the payment of the tribute, Jerusalem would remain militarily confined by, and subject to, the King of Assyria until King Chezkiyah (Hezekiah) could find a way to break free of Assyria's military control over him and his cities.

This opportunity would not present itself for another 6 years until the 20th year of King Chezkiyah's

(Hezekiyah's) reign (Fall 3298 to Fall of 3299 from Adam). For at this time while Egypt provided resistance from the south against the King of Assyria; **verse 18:21-24**, Libnah and Ethiopia also began to stir up war against the King of Assyria from the south; **verse 19:7-9**.

By this time the King of Assyria had likely spread himself out, and now with war arising from Libnah, and potentially from Ethiopia as well, was likely concerned that King Chezkiyah (Hezekiah) in the North, would use this as an opportunity, through an alliance with Egypt and distraction from Libnah, to revolt against Assyria's military occupation of Judah; **Melekim Bet (2 Kings) 18:21-24; 19:7,8**.

It was at this time that the King of Assyria realized it would be potentially detrimental to his military control of Judah, if he attempted to maintain his military presence around Judah with its as yet uncaptured, unconquered, armed, and fortified city of Jerusalem, while simultaneously fighting a war with Egypt and/or Libnah and/or Ethiopia.

Because of this, the King of Assyria would not want to take the chance of King Chezkiyah (Hezekiah) siding with Egypt against him if he, the King of Assyria, needed to remove his troops from Judah to defend himself against Egypt and/or Libnah.

This is likely the reason for the decision of the King of Assyria to first take the fortified city of Jerusalem, which if successful, would place him in a better position to defend himself against the arising threat from Egypt, Libnah, and Ethiopia, and would prevent him from losing all that he had captured in Judah 6 years prior.

So the King of Assyria amassed a huge number of troops to try and ensure his victory over Jerusalem, which in turn, upon victory, would allow him to station a small military presence to maintain his military occupation of Judah, while taking the bulk of his forces south to fight against the other arising threats there.

At this time the Eternal One stated that the King of Assyria would not shoot a single arrow into the city or even build a single siege mound against it; **verse 19:32-34**.

The Eternal One also stated that as a signal to King Chezkiyah (Hezekiah) to confirm this, that this year he would eat what grows of itself **Melekim Bet (2 Kings) 19:29**, indicating that it was a 7th year Sabbatical of rest for the land; **V'yikra (Leviticus) 25:3,4** and that the following year he would also eat what grows of itself - indicating that the 2nd year would be a Year of Jubilee, which is also a time of rest for the land^{*1}; **V'yikra (Leviticus) 25:8-11**, as well as the year in which all inheritance in the land is restored to the people; **V'yikra (Leviticus) 25:10**.

This is precisely what happened after the Assyrian army was defeated, when in that night the Eternal One sent a Heavenly Messenger (an Angel) to kill 185,000 men of the Assyrian army while they slept; **Melekim Bet (2 Kings) 19:35**. Soon after this defeat with a loss of 185,000 of his men, the King of Assyria returned to his temple where he was killed by his sons; **Melekim Bet (2 Kings) 19:36,37**.

So this first year, in which the 185,000 men were struck by the Heavenly Messenger (the Angel), was a 7th year Sabbatical (Fall 3298 through Fall of 3299 from Adam), which upon completion at the end of the year would begin the Jubilee year (Fall 3299 through Fall of 3250 from Adam), therefore 1 year passes from the time the 185,000 were slain to the time the Jubilee begins.

For more details on this passage from **Melekim Bet (2 Kings) 18:13 through 19:37** from a different perspective but with the same conclusion about this text as covering two confrontations with the King of Assyria, rather than just one, see the work of **Dr. Floyd Nolan Jones** commentary on "**Ussher's Annals of the World**", in his publication, "**The Chronology of the Old Testament**" pages 160-170, and published by, "**New Leaf**" Printing, 2005.

Note *1: Two sabbatical years in a row reveal a Jubilee taking place in the 2nd of the two sabbatical years - which is then followed by planting in the 3rd year, that is, in the 1st year of the next 7 year cycle; **V'yikra (Leviticus) 25:4,8,11**.

H	**End of military occupation of Judah under Assyria	Chezkiyah's Jubilee, 66th Jubilee from Adam	(21 of 29)	3299, 66th Jubilee begins. Y	2700	674	N/A	N/A	2 Kings 19:29; Is. 37:30; *note H	G

NOTE *H, (**non-essential part of Time Line but interesting). King Chezkiyah's (Hezekiah's) Jubilee to the end of King Chezkiyah's (Hezekiah's) reign. Founded upon **Melekim Bet (2 Kings) 19:29; Yesh'yahu (Isaiah) 37:30.**

King Chezkiyah (Hezekiah) began his reign in the year 3278 from Adam and reigned 29 years, thereby causing his reign to end in the year 3307 from Adam.

Jubilee years begin at the end of a year ending in "99" or "49" from Adam. King Chezkiyah's (Hezekiah's) Jubilee began in a year ending "99", extending from Fall of 3299 to Fall of 3300 from Adam in the 21st year of his reign.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To "Event or Reign" Box
44	Zedkiyahu	To beginning of 70 Year Captivity	10.04:07	3417.00:14	2582	556	Unknown	Unknown	2 Kg. 25:2-11; Jer.25:8-11; 2 Chr.36:20; Jer.40:1; *note 7

Note *7: On the number of years of King Zedkiyahu's (Zedekiah's) reign at the time the Babylonian captivity took place, and on which year specifically the 70 year captivity began.

The count here is done the same as with Noach in Note *1 and as explained in the Foreword under "How to Interpret the Time Line". In this passage it states in **Melekim Bet (2 Kings) 25:2-8** that the siege against Jerusalem took place in the 11th year of King Zedkiyahu. This means he has now ruled up to this point for **10** full years and for part of the his 11th year (**verse 25:2**); and that in the 5th moon (meaning **4** full moons had passed, and now partially in the 5th moon) and on the **7th** day of the (5th) moon (**verse 25:8**), that Nebuzaradan, the captain of the Babylonian guard, took Jerusalem captive (**verse 25:8-11**).

This is written out as **10.04.07** and means that up to this point a total of 10 full years, 4 full moon cycles, and part of a 7th day have passed.

Israel was taken captive in 3 stages, but it is only this invasion that Nebuzaradan led against Jerusalem that is referred to as the "captivity"; **Yer'miyahu (Jeremiah) 40:1**. The captivity lasted 70 years from this point; **Yer'miyahu (Jeremiah) 25:8-12; Divrei ha-Yamim Bet (2 Chronicles) 36:20-21**, and so ended in the year 3487 from Adam.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To "Event or Reign" Box
46	From 69 Weeks of Years of Daniel (483 years)	To time of Yeshua's 1st night of Sukkot, Sept. 25th, 3 BC of the Julian Calendar. P	483	3970 years and 14 days have passed.	2029	3 BC, 15th day of 7th Moon P	N/A	N/A	2 Chr. 36:22,23; Jer.29:10; Dan.9:24,25; Ezra 1:1-4; Matt. 2:1,2,8,9 *note 8

NOTE *8: On the Star of Bethlehem and how the sum total of fractional years add up to 12 moons and 14 days. Founded upon **B'midbar (Numbers) 24:17; 2 Chronicles 36:22,23; Ezra 1:1-4; Yer'miyahu (Jeremiah) 29:10; Daniel 9:24-26; Mattit'yahu (Matthew) 2:1,2,8,9** and modern day astronomical reports noted by **Dr. Ernest L. Martin.**

Daniel 9:24-26 states that it would be 7 and 62 weeks of years (69 seven year periods) to Messiah (a total 483 year period), then some unspecified number of years after this, and before the destruction of the Temple, that He would be killed. This 483 year period extending from the end of the Babylonian captivity in the year 3487 from Adam brings us to the year 3970 and 14 days from Adam in the year 3 BC (3487+483=3970).

This total elapsed time from Adam of 3970 years and 14 days is derived as follows. The sum of the whole years up to this point is precisely 3969 years accumulated from Adam; and the sum of the fractional years up to this point equals precisely 12 moons and 14 days.

00.01:27 (1 Moon, 27 days) {Line 11 of Time Line}
 00.03:00 (3 Moons) {Line 41 of Time Line}
 00.03:10 (3 Moons,10 days) {Line 43 of Time Line}
 + 00.04:07 (4 Moons,7 days) {Line 44 of Time Line}
 = 01.00:14 (12 moons, 14 days)

This sum added to the year 3969 brings the total number of years passed from the time of Adam to 3970 years and 14 days.

Because this calendar simply counts the time elapsed from Adam, the beginning date can be started during any point of the year. Interestingly enough, if the creation of Adam occurred on the 1st day of the 1st Moon, then Yeshua's birth, after 3970 years and 14 days from Adam had passed, would have occurred on Pesach.

Likewise, if Adam was created on Yom Teruach (the 1st day of the 7th moon) then Yeshua's birth, after 3970 years and 14 days from Adam had passed, would have occurred on the 1st day of Sukkot - in the Fall.

We know that church tradition holds His birth to be in the Winter. We also know that more recent Christian research holds His birth to have been in the Fall; and know that no tradition or research holds His birth to be in the Spring.

This rules out Pesach (Passover) as any possible time for His birth, and consequently, the Aviv moon for the beginning of creation.

The Appointed Times of Fall, likewise, begin on Yom Teruach (Rosh Hoshanna/Day of Trumpets to Rosh Hoshanna/Day of Trumpets) and so by this count cause the Birth of Yeshua in this year to land on the first day of Sukkot (Tabernacles), which began on the 15th day of the 7th moon this year at sunset.

Therefore, this calendar counts from Jubilee to Jubilee, with Yom Teruach (Rosh Hoshanna/Day of Trumpets) in the Fall marking the day of Adam's creation from the dust of the earth - and by way of extension, the day of our resurrection from the dust of the earth on this same day; **I Corinthians 15:51,52-54**.

So coming back to the time of Yeshua's birth, the first sliver of the 7th Moon of this year appeared on September 11, 3 BC of the Julian calendar in the year 3970 from Adam, which when adding the remaining "14 days" left over from the accumulated fractional years, brings us to September 25th, 3 BC, the 1st day of Sukkot, as the time of Yeshua's birth this year.

Also, in **B'midbar (Numbers) 24:17** it states that a star would arise out of Yaaqov at the time of Messiah's coming. We also know that the Magi (the Wise Men) are recorded to have witnessed the sighting of a star in **Mattit'yahu (Matthew) 2:2**.

And though the time of Yeshua's birth is soundly supported through the Scriptures cited above in this Time Line, it is interesting to note that in addition to the Scripturally confirmed passage of Time from Adam to Yeshua's birth noted above, that astronomers have now also found this star identified in **B'midbar (Numbers)** and in **Mattit'yahu (Matthew)**, and have determined it to have arrived on September 14, 3 BC in announcement of this imminent birth of our King to come.

The same star reappeared again on February 17, 2 BC, and again on May 8, 2 BC where it appeared a final time and stood at its brightest above Bethlehem on June 17, 2 BC over the house that Miriam and Yoseph had moved into after Sukkot, and which acted as a signal to guide the Magi (the Wise Men) to Yeshua's location over the months. A truly amazing sight indeed.

This event can be viewed through a re-enactment created by the **Griffith observatory** at: www.askelm.com/video/real/xmas_star.swf

Also, concerning the time of the registration mentioned in **Luke 2:1-5**, this was a registration imposed on all the citizens of the Roman Empire periodically. This one taking place in Bethlehem was under the jurisdiction of Quirinius (Cyrenius) while he was governing in Syria* in succession to Varus during the war in Cilicia, which by **Tacitus'** calculation, was in 3-2 BC, and which by **Ramsey's** calculation was during the conquest of the Homonadenses in 4-3 BC. Yeshua was born

in September of 3 BC in precise agreement with both these dates of Quirinius' first administration taking place in Syria at that time. Some of the earliest Church leaders, **Irenaeus, Clement of Alexandria, Tertullian, and Africanus**, also placed Yeshua's birth in 3 BC. (**The Dictionary of New Testament Background, by Evans and Porter, Intervarsity Press 2000*)

This likewise made it very easy for Miriam (Mary) and Yoseph (Joseph) to be registered at the time of Sukkot, for Bethlehem is only 6 miles Southwest of Jerusalem, and so would have required only a minor detour to be taken on their part to stop at Bethlehem to register before going up to the feast.

Likewise, because of its close proximity to Jerusalem, and because of Jerusalem's limited housing resources (which are estimated to have been sufficient for only about 120,000 people at that time), Bethlehem was a major host city for providing food and lodging to the overflow of adherents making their pilgrimages to Jerusalem each year (the number of people making pilgrimages being estimated at about 3 million per Feast).

A final point to resolve here is the time of the death of Herod the Great. Many have traditionally calculated Herod's death at 4 BC based upon the reports of Josephus who stated that Herod died shortly after a lunar eclipse and before a Passover.

However, this lunar eclipse, which occurred on March 13th, 4 BC was only a **partial** Lunar Eclipse, and provided only a 29 day window of time to the Pesach occurring around April 11th, 4 BC of that year for the multitude of events to take place that **Josephus** stated occurred. Points that have left many scholars dissatisfied with this solution.

The better candidate, as pointed out by **Ernest L. Martin, W.E. Filmer, Ormand Edwards**, and others, is the **Full** Lunar Eclipse that took place on about January 10th, 1 BC and that provided an approximate 3 month window leading up to the Passover that took place that year around April 8th, 1 BC, and which provided more than adequate time for all the events of that window to take place that **Josephus** states occurred during that time.

This also fits in well with the 2 year window stated in **Mattit'yahu (Matthew) 2:16b** which states that Herod "...put to death all the male children who were in Bethlehem and in all its districts, from age 2 years old and under, according to the time which he had determined from the Magi (the Wise Men)." The two year window of which is consistent with the 3 BC date where the Star of Bethlehem sighting has been astronomically determined to have occurred.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference to "Event or Reign" Box
47	From Yeshua's Birth on night of Sept. 25, 3 BC of Julian Calendar	To Yeshua's Proclamation of 80th Jubilee from Adam.	30	3999 yrs. complete. 80th Jubilee begins. Y	2000	Ministry begins Spring of 27 AD	N/A	N/A	Lk. 3:23; Lk. 4:16-21; *note 9

NOTE *9: On the time and age that Yeshua began His ministry. Founded upon **Luke 3:1-3,21-23; Luke 4:16-21; Daniel 9:26**.

Luke 3:1-3 states that in the 15th year of Tiberius Caesar, Yehochanan the Immerser (John the Baptizer) began his ministry. The 15th year of Tiberius Caesar's reign was from September 15, 26 AD to September 14, 27 AD. Additionally, Yeshua began His Ministry sometime after John the Baptizer began his; and at a time that the construction of the Temple had been 46 years in process; **Yehochanan (John) 2:18-20**.

The first year for construction of the Temple was the year 20/19 BC (General Encyclopedia ref). To this we must come forward 46 years; **Yehochanan (John) 2:20**.

This causes the 46th year of the building of the Temple to be the same as the 15th year of Tiberius Caesar's reign, namely, 26/27 AD.

Since Yeshua began His ministry after the Temple had been under construction for 46 years, this causes Yeshua's ministry to have begun *no sooner than 27 AD*.

In confirmation of this, Yehochanan the Immerser (John the Baptizer) was 6 months older than Yeshua, and it is unlikely that he would have had a ministry preparing the way for Yeshua any less than 6 months prior to the beginning of Yeshua's ministry.

Likewise, it is not possible for Yehochanan the Immerser (John the Baptizer) to have begun his ministry any sooner than at the beginning of Tiberius Caesar's 15th year, which began on September 15, 26 AD, again, causing Yeshua's ministry to begin *no sooner than 27 AD* if He began 6 months after John.

Since 46 years of construction had passed on the Temple, that means that the year 27/28 AD was the 47th year of construction which in turn *makes 27/28 AD the latest possible date* for the first year of Yeshua's ministry as well. This is further confirmed in **Luke 4:16-21** where Yeshua announces the Jubilee Year, which at this particular time went from Yom Kippur of 27 AD to Yom Kippur of 28 AD.

Luke 3:23 states that Yeshua was "about" 30 years old just before He did His 40 day fast and was tempted by the Accuser. It was after this that Yeshua declared the Jubilee Year. This is important to understand that Yeshua was "not" 30 years old when He began His ministry, but 29 years old and entering into His 30th year. That is, He had completed 29 years of life and was in a fraction of His 30th year.

Luke here uses the Greek word, "hosei" which has been translated as "about", but which when used with a number means more accurately, "near to" that number as in approaching that number; and is different from the word "approximate" in that "approximate" can mean a little over or a little under a number, whereas "hosei" means "approaching", or "arriving" at close proximity to that number without going over or past that number.

In this case it means that Yeshua was close to completing His 30th year of life, and so was 29 years old and partially "filled up" His 30th year of life at the time that He was immersed (baptized); **Luke 3:21,22**, and declared the Jubilee; **Luke 4:16-21**(emphasis on **4:19**). In fact, if Yeshua was born on the 1st day of Sukkot as we believe, then He would have been only 5 days shy of His 30th birthday at this time if He made the proclamation on Yom Kippur (Day of Atonement).

The Fall of the year 3 BC when Yeshua was born, plus the 29 completed years of Yeshua's life brings us to the Fall of 27 AD to Fall of 28 AD for Yeshua's 30th year; the year of His Ministry which began as He was "entering into" His 30th year of life.

Remember, there is no year "0" in the Julian calendar; so you are not taking 29 completed years minus 3 BC years to get only 26 years, but 29 completed years minus only 2 BC years.

For example:

Fall of 3 BC to Fall of 2 BC = 1 year completed

Fall of 2 BC to Fall of 1 BC = 2 years completed

Fall of 1 BC to Fall of 1 AD = 3 years completed

Fall of 1 AD to Fall of 27 AD = an additional 26 years completed

26+3=29 years completed with Yeshua entering into His 30th year.

Likewise, the year of Yeshua's birth of 3970 from Adam, plus 29 completed years of Yeshua's life, equals the year 3999 from Adam and the beginning of the 80th Jubilee Year from Adam. All of the numbers add up and point to the year of Fall 27 AD to Fall of 28 AD as the year of Yeshua's Ministry, and of the 80th Jubilee from Adam.

The ancient teachers of Israel in the Talmud also taught that the Suffering Servant Messiah, Ben Yoseph, would come on the 4th day (4th Millennium) from Adam. That 4th day, 4th Millennium, began on this Jubilee.

However, in **Luke 4:18,19** when Yeshua read the Jubilee passage declaration of **Yesh'yahu**

(Isaiah) 61:1,2 which says, “the Spirit of Yehovah is upon Me, because He has Anointed Me to announce the Gospel to the poor...” and declared to them that those words had been fulfilled in their hearing that day, they were amazed, because though it was in this Jubilee year that they expected the Messiah to reveal Himself, it amazed them that Yeshua, a mere son of a lowly carpenter, rather than of a famous “rabbi”, or of some other person of stature, would take that claim upon Himself; and why they wanted to kill Him in **Luke 4:28,29** for it was too incredible to them that He could be the long awaited Messiah.

Line #	From Event or Reign	To Event or Reign	# of Years	Years from Adam	Years to 2nd Coming	In BC-AD	Died BC-AD	Total Life Span	Scripture Reference To “Event or Reign” Box
48	From beginning of Yeshua’s Ministry in 80th Jubilee from Adam.	To Yeshua’s Projected Return in Fall of 2027 AD of Gregorian Calendar.	2000	5999 yrs. complete. 120th Jubilee occurs.	0	Fall 2027 AD	N/A	N/A	2 Pt. 3:8; Hoshea 6:1,2; Ezek. 37:1-14; *note 10 Year 6000 (2027/2028) is 120th Jubilee.

NOTE *10, Yeshua’s Ministry in the beginning of His 30th year to His return 2000 years later at the beginning of the 120th Jubilee. Founded upon **Luke 4:16-21**; **2 Kepha (2 Peter) 3:8**; **Hoshea 6:1,2**; **I Thessalonians 4:16**; **Yechezk’el (Ezekiel) 37:10**; **Revelation 11:15**.

Yeshua proclaimed the 80th Jubilee; Luke 4:16-21 in the year 27 AD. **Hoshea 6:1,2** is understood by the ancient teachers of Israel to mean that after 2000 years from the “Suffering Servant Messiah (Ben Yoseph), the conquering King Messiah (Ben David) would resurrect us; that on the 3rd millennium following this 2000 year period He will have raised us up to live in His presence.

This is further enforced from Christian circles which cite **2 Kepha (2 Peter) 3:8** to show that a day can be symbolically used to represent a thousand years of prophetic time.

Yechezk’el (Ezekiel) 37:10, combined with **I Thessalonians 4:16**, describe what this resurrection will look like in great detail, and states that it is from this resurrection of His people that He will create the army that He will conquer and rule the nations with; **Revelation 19:7-14**; **Yechezk’el (Ezekiel) 37:10**; **Mizmor (Psalm) 149:5-9**.

I Corinthians 15:51,52 and **I Thessalonians 4:16** indicate that this resurrection will occur on Yom Teruach (Rosh Hoshanna), the day of shouting and of the blowing of the Last Shofar.

Revelation 11:15 shows that this is when Yeshua, with His resurrected army, will take over the kingdoms of the earth; **Yechezk’el (Ezekiel) 37:10**; **Revelation 19:7-14**.

Revelation 20:4-6 states that this reign will last for 1,000 years.

And finally, in **I Corinthians 15:20-28**, and **Revelation 20:7 through 21:1** (after the 1000 year Millennial reign is complete), we see the kingdoms of the earth restored back to our Father in Heaven.
